Year 2

Spring Term

# Germination

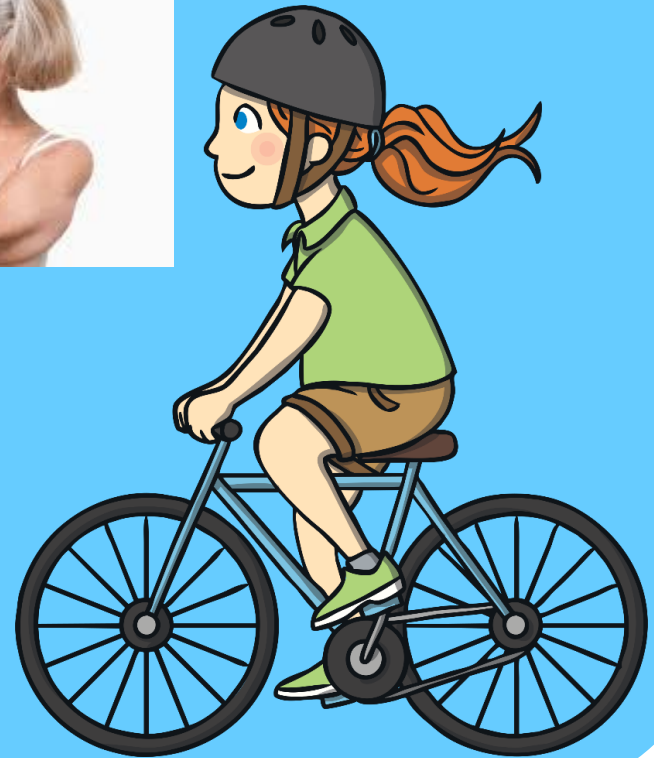

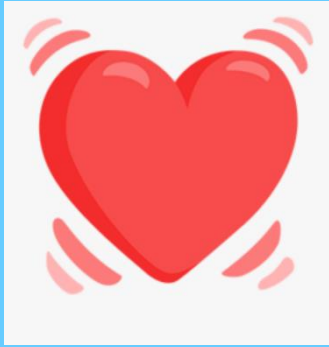

*Why might this have happened?*

# Living, No Longer Living or Never Living?

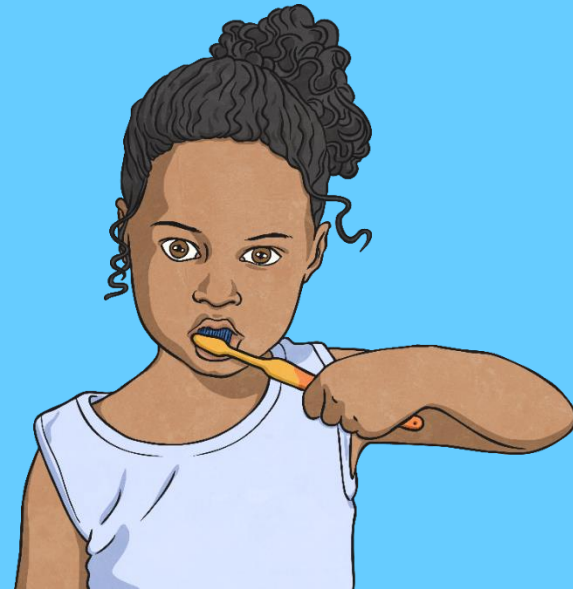

# Why is exercise important?

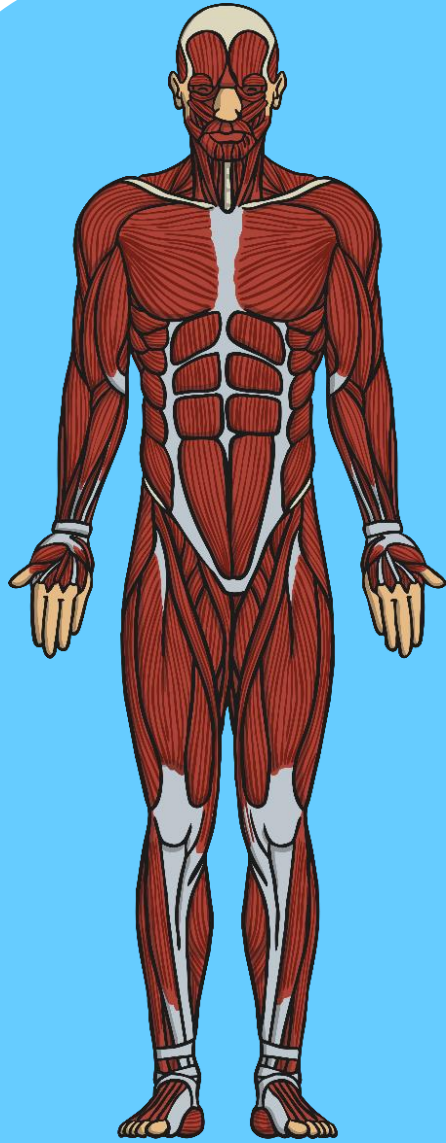

Why is a balanced diet important?

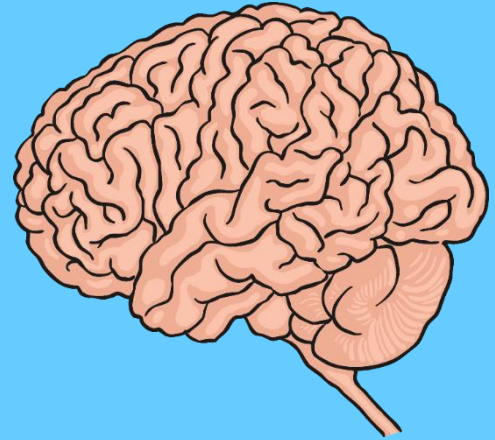

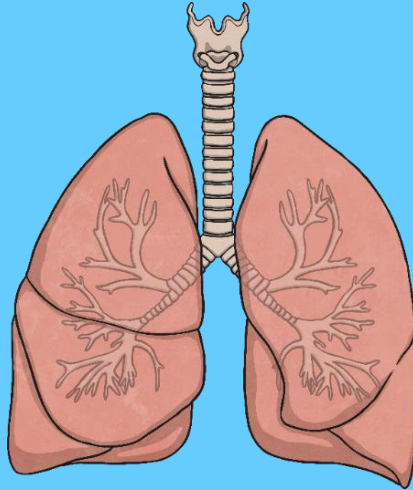

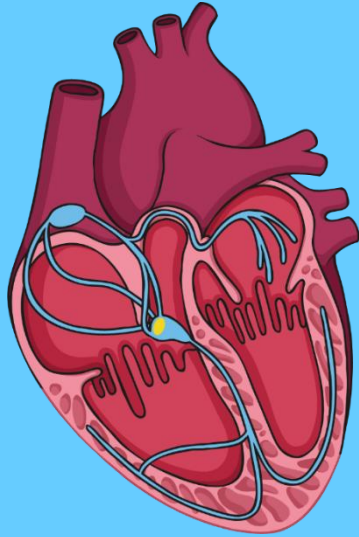

Why is good hygiene important?

These are  
called \_\_\_\_\_.

They help us to  
\_\_\_\_\_ and  
\_\_\_\_\_.

Pumps  
fills with  
blood  
oxygen to  
conducting  
help us  
control the  
breath  
bloods  
you can't  
bonds

Seaweed

Silver birch

Palm tree

crocuses

kelp

Oak tree

cactus

Mangrove tree

Ivy

Aloe vera

Bluebells

Pear cactus

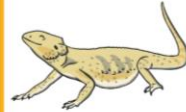

Which plants would you find in \_\_\_\_\_?

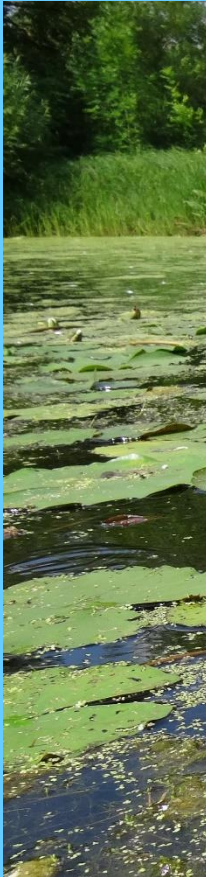

Which type of animal  
am I describing?

								
			<b>mammals</b>	<b>amphibians</b>				
			<b>reptiles</b>	<b>fish</b>				
			<b>birds</b>	<b>insects</b>				

Which animals would you find in \_\_\_\_\_?

*How does the habitat  
provide for the animals  
that live there?*

What do all these animals  
have in common?  
Where is the producer?  
dependent for  
survival?

OAK TREE LEAVES

CATERPILLAR

TREECREEPER  
(SMALL BIRD)

HAWK

What do the animals all need to help them grow, be safe and survive?

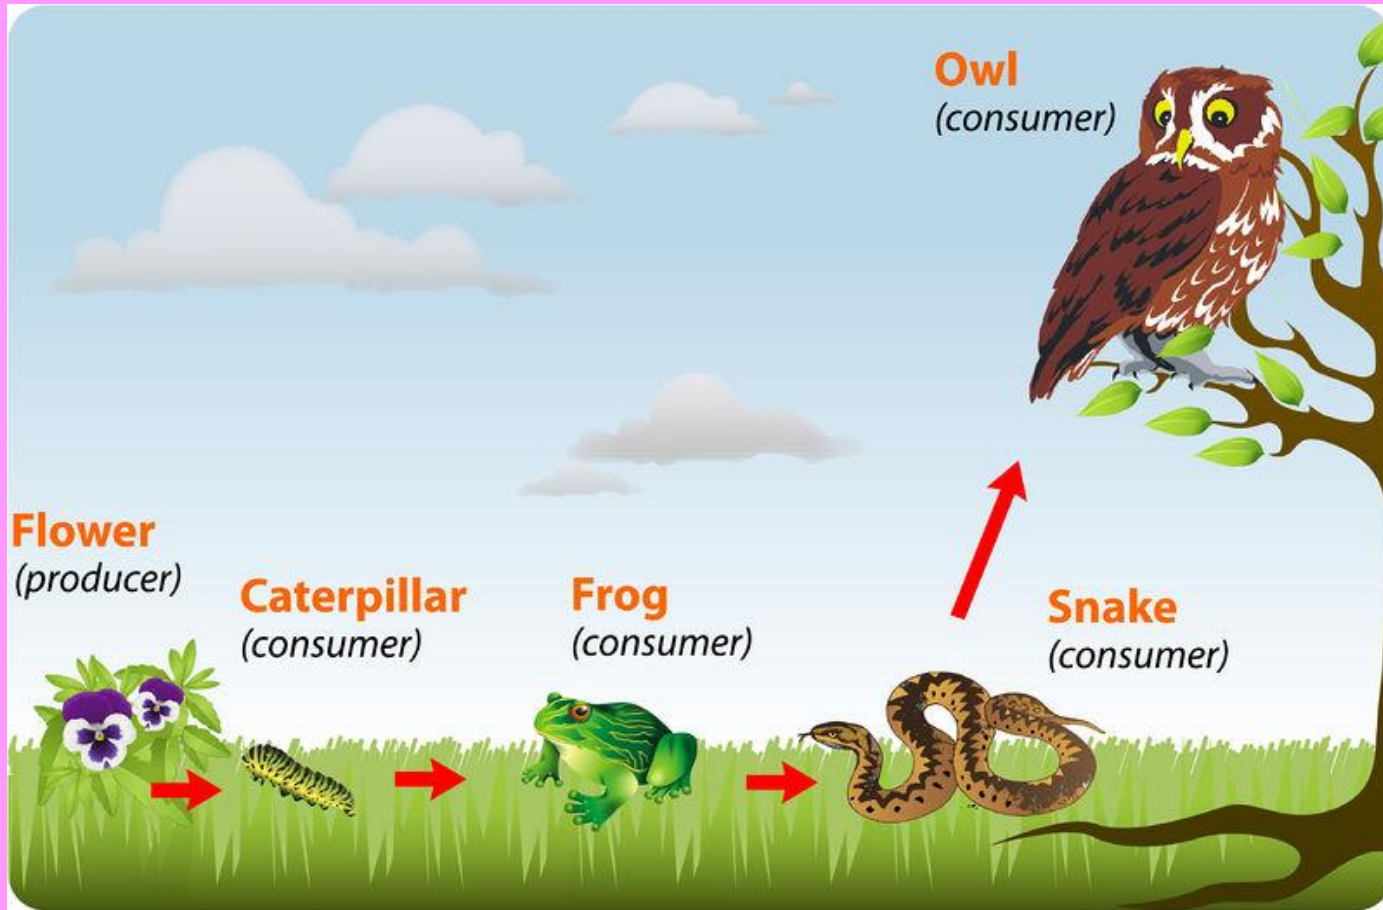

Year 2

Summer Term

# *Living, No Longer Living or Never Living?*

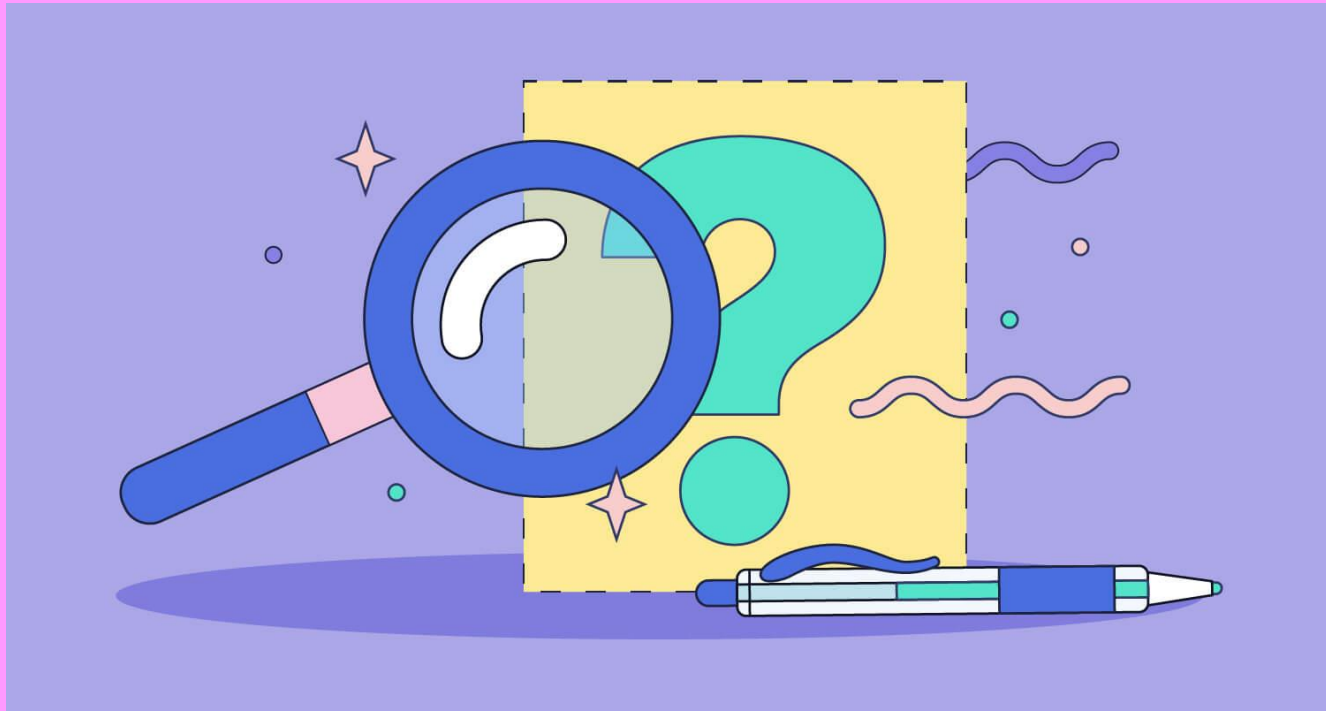

# Predator or Prey?

*What is a fair test?*

*What is a prediction?*

*How have they adapted to their habitat?*
