8th January 2026

Dear Parents/Carers,

Maths Presentation – Monday 26th January 2026 at 6pm

We are pleased to invite you to a Maths Information Evening at school, where we will share how mathematics is taught across our infant school and how you can support your child's learning at home.

The aim of the evening is to help you understand our maths curriculum and the approaches we use to support children in becoming confident, fluent mathematicians. During the session, we will talk about:

- Our maths curriculum and how it progresses across the year groups
- How we teach maths in school, including our focus on understanding, reasoning, and problem-solving
- Our Mastering Number approach and how it supports strong number sense
- Practical ways you can support maths learning at home
- The resources and tools we use to support children on their maths journey

There will also be time to explore examples of activities and resources, and to ask questions.

This is an evening for adults, starting at 6pm and finishing at approximately 6.30pm, and all our parents are welcome to join us. We hope this evening will help build a strong partnership between home and school and give you confidence in supporting your child's mathematical development.

We look forward to welcoming you to our school.

Yours sincerely

Mrs Emma Bowler
Head Teacher
