

British Values throughout our KS1 Curriculum

Maths

Democracy	The Rule of Law	Individual Liberty	Mutual Respect & Tolerance
<p>We consider the views of others and explore democracy by using voting methods when gathering data for analysis.</p>	<p>Children follow class rules during tasks and activities to ensure everyone's safety and well-being, while also recognising the consequences if rules are ignored.</p>	<p>We operate within boundaries to make safe and personal choices from a given selection during practical activities.</p>	<p>Children behave appropriately, ensuring that everyone has the opportunity to work to their full potential. They take turns, share equipment, review each other's work with respect, and collaborate on projects while supporting others.</p> <p>Pupils use Maths to learn about different faiths and cultures around the world. For example, looking at patterns and shapes within Islam and Hindu religions.</p> <p>Tolerance is shown when children respect different methods and strategies used by their peers to solve mathematical problems, understanding that there is often more than one way to reach a solution.</p>
